

Why report a possible side effect

East India Pharmaceutical Works Ltd. has more than 8 decades' long strong commitment towards manufacture & marketing of high quality medicinal products. Even then, side effects (adverse drug reactions) can occur with any of them, anytime. It is often not possible to predict who will get what and when. So, it is vital for us to monitor the safety of our products continually. Specifically for this, we maintain a comprehensive database, which is updated & analyzed regularly. In case you have experienced any untoward events, unpleasant incidents or adverse reactions with any of our medicinal products, please inform us forthwith, by filling up and submitting the form below. It will help us in continuous risk-benefit assessment of our medicines. A few minutes spent by you now could potentially save many others from harm in future.

Who can report ? What, when, where & how?

ANYBODY, even • Laymen / General Public : patients (consumers), their friends / relatives, etc., but specially • Health care professionals : doctors, dentists, nurses, paramedics, pharmacists, physiotherapists, etc. (whose participation is also most vital) or any interested person on their behalf,

can voluntarily report **ANY** side effects, adverse events or untoward incidents, experienced after taking medicine(s) of East India Pharmaceutical Works Ltd.

EVEN IF you don't have all the details or are not absolutely certain that they have been caused specifically by the product only

as completely as possible, in the specific, detailed but brief 2 page **FORMAT** provided below, either online or by downloading & submitting hard / soft / scanned copies **TO** :

• reportsideeffects@eastindiapharma.org • any of our company's medical representatives • Quality Control Dept, East India Pharmaceutical Works Ltd., 119 Biren Roy Road (West), Kolkata 700061, India.

Confidentiality & Disclaimer

The patient's identity will be kept **STRICTLY CONFIDENTIAL** and protected to the fullest extent, at all times and circumstances. The reporter's identity too is not for public disclosure. Reporting is **PURELY VOLUNTARY** and aimed at patient safety only.

Please note that compilation / submission of the form **DOES NOT** amount to an admission of causality / contribution by the physician, healthcare provider, manufacturer or product, towards the untoward incident or adverse outcome being reported. Neither does it have any legal binding or implications.
